

DHANUSH K

SOC Analyst | Cybersecurity Analyst

Salem, India | +91-8610567852 | er.dhanushkumaravel@gmail.com

PROFESSIONAL SUMMARY

Cybersecurity Professional with hands-on training in Security Operations Center (SOC) practices, SIEM monitoring, vulnerability assessment, and network security. Experienced in deploying and managing Wazuh SIEM, configuring Cowrie SSH/Telnet honeypots, analyzing security events, and performing web application security testing using industry-standard tools. Proficient in Linux system administration, log analysis, incident investigation, and identifying security vulnerabilities through practical cybersecurity projects.

TECHNICAL SKILLS

- SOC Monitoring & Log Analysis
- Incident Detection & Response
- Cybersecurity & Pentesting
- Vulnerability Assessment
- Network Security Analysis
- SIEM Tools
- Linux Administration
- Web Application Security Testing
- Security Monitoring
- Threat Hunting

PROFESSIONAL EXPERIENCE

Cybersecurity Intern – ThinkInfo Expert Solutions

November 2025 – March 2026

- Gained practical experience in SOC and network security monitoring.
- Performed vulnerability assessments and penetration testing on web applications and network environments.
- Assisted in security testing activities for the WebFoxShield cybersecurity platform.
- Monitored Wazuh client-server logs to identify anomalies and security incidents.

PROJECTS

Honeypot-Based Threat Detection and Log Analysis using Cowrie & Wazuh

- Designed and deployed a Linux-based SSH honeypot using Cowrie in a virtualized SOC lab environment. Simulated attacker activity from Kali Linux, collected and analyzed honeypot logs, and integrated security events into a Wazuh SIEM environment for threat monitoring and incident analysis.
- Analyzed honeypot logs to identify malicious behavior and attack patterns.
- Integrated honeypot logs with Wazuh SIEM for centralized log monitoring and alert generation.
- Captured attacker commands, login attempts, and session activity in JSON logs.

EDUCATION

Bachelor of Engineering (B.E) – Computer Science and Engineering

Mahendra College of Engineering, Salem, India
2022 – 2026

CERTIFICATIONS

Cybersecurity Professional Training ThinkInfo Experts Solutions

- Completed instructor-led cybersecurity training covering network security, ethical hacking, vulnerability assessment, SIEM, Linux, incident response, and security monitoring.
